

The Dry Season is truly upon us up here in the beautiful Top End. The sun is out with not a cloud in sky, the streets are beginning to fill with the sights and sounds of tourists from all over the globe and the dragon flies are out and about, a definite indication of everyone's favorite season.

We have had a huge torrential wet season this year with record rainfall, flooding in Kakadu and Cyclone Carlos also paid us a visit. This has restricted our access to some of our highlights out in Kakadu. Luckily enough we have excellent alternatives to visit whilst we cannot access the other locations. Putting the wet behind us we look forward to the sun soaking up all the water and providing us with admission to our natural wonders such as Jim Jim & Twin Falls.

May is here and brings along with it the departures of our diverse 3 Day Kakadu Culture Camp 4WD Safari. This one of a kind small group tour allows you to reach some of the deepest parts of Kakadu. Visiting Ubirr & Nourlangie Aboriginal Rock Art Sites, Jim Jim & Twin Falls as well as Maguk (Barramundi Gorge). Also partake in the intriguing Kakadu Culture Camp experience with an eerie Kakadu By Night Cruise a totally different way to experience Kakadu. If your searching for something off the beaten Track this tour would be right up your alley. If 3 days is too long you can always hop aboard our 2 Day Kakadu Highlights tour which is available year round also including our famous Kakadu Culture Camp aspect.
